GERMAN AEROPLANE RIDDLED IN DARING AIR RAID ON PARIS

French Air Squadron Repulses Attack on Capital—Hostile Aero is Shot to Pieces in Chase—Bulgaria Ready To Go To War.

Awaits Territorial Concessions and Will Then Convene Parliament—Tentons Break Through Russian Line Again in Galicia.

Parns, Aug. 28.—Four German military aeroplanes attempted to make a raid on Paris this morning. They were attacked by a French air flotilla and one of the German machines were shot to pieces in mid air.

The German machines crossed the French lines flying at a great height, and driving toward the city of Paris. When over a point north of the capital they sighted a French air flotilla which was waiting for them and three of the German aeroplanes wheeled about and headed for the German lines.

Two of the German machines escaped, but one was outdistanced by its pursuers and was riddled by bullets. It fell flaming into the forest of Hainaut where the burned bodies of two aviators were found.

The fourth machine dropped five bombs at Montmorency, a town fifteen miles from Paris. No was hurt. The heaviest of the bombs caused a fire on the aeroplanes but it got away in the haze.

Travelers arriving in Paris by train from the north can see at almost any hour from ten to fifteen French war planes in the air at the same time, protecting the capital from German air raids.

TEUTONS PIERCE RUSSIANS' LINES

Berlin, Aug. 28, via London.—Tentons pressure against the Russians in eastern Galicia has resulted in the piercing of the Russian line along the Zlota Lipa river, it was officially announced today by German army headquarters. It was also announced that the town of Narew, about twenty miles southeast of Lublin, had been occupied by the Germans.

Since the Austro-Germans in their drive through Galicia in May and June threw the Russians back upon the line of the Dniester and the Zlota Lipa and Zlota Lipa rivers late in June, there has been comparative inactivity along this front so far as the official reports have indicated.

Today's statement from German army headquarters that the Russian lines on the Zlota Lipa had been broken through apparently means that the Teutonic forces are renewing their thrusts in Galicia's territory.

TWO BRITISH CRUISERS SEEN AT SANDY HOOK

New York, Aug. 28.—A three-funnel British cruiser appeared at the Sandy Hook lightship today. At the same time a British cruiser of four funnels was sighted fifteen miles southeast of the lightship.

This is the first appearance of regular British cruisers off the New York coast in the past three weeks.

RUSSIANS STILL HOPEFUL OF THWARTING TEUTONS

London, Aug. 28.—As the Russian armies continue to retreat the foreign and war ministers at Petrograd deny vigorously that their government has any thought of making a separate peace with the central powers. Special despatches from Petrograd state that the Russians are on the point of digging themselves in.

Military writers at the Russian capital are of the opinion that the German turning movement in Courland is not likely to threaten Petrograd seriously this autumn, as Field Marshal Von Hindenburg apparently has made no progress in his efforts to secure control of the Baltic coast.

The latest news from that region, however, indicates that Germany has not given up the plan for naval co-operation toward this end. Berlin reports that German warships bombarded at two points Deage Island, which commands the entrance to the Gulf of Finland.

The Russian Foreign Minister, M. Sazonov, declares emphatically that there is no disagreement among the allied commanders, and that while a German soldier remains on Russian soil there can be no peace.

The greatest interest is displayed here in reports from Washington of the negotiations between the United States and Germany concerning the Arabic.

Most of the papers consider that President Wilson has diplomatic

LUSITANIA LOSS MUST WAIT FOR CASE OF ARABIC

Won't Be Reopened By U. S. Until Latest Development is Settled.

Washington, Aug. 28.—Discussion of the case of the Lusitania, sunk by a German submarine, with the loss of American lives, will not be renewed between the United States and Germany pending settlement of the Arabic incident, it was said here today.

Although the United States has been notified of Germany's readiness to again take up the Lusitania affair and to offer reparations the American government will not listen to such a proposal until the situation growing out of the sinking of the Arabic is finally settled.

Nothing further on the sinking of the Arabic is looked for from Germany until the submarine commander who sank the vessel reports.

STRIKE BENEFITS NOT CALLED FOR IN PRESENT SITUATION

Settlements so Speedily Effected That There is No Need of Cash.

Because of the speedy adjustments of strikes in this city through the efforts of the labor leaders, there is little need of payment of strike benefits, according to those who are handling the situation.

Although it is expected that the Star Shirt Co. and the Star Shirt Manufacturing Co. disagreements will be settled soon, because of the necessity of providing for the Christmas trade, strike benefits of \$4 a week will be paid, in all likelihood, if the strike continues more than three weeks. A general assessment of A. F. of L. members will be laid for the purpose in that event.

Canan Bank Cashier Held For U. S. Court

Hartford, Aug. 28.—George Roger, of Canan, cashier of the Canan National Bank, was arraigned before United States Commissioner Richard F. Carroll today on a charge of embezzlement of funds of the bank amounting to \$5,500, and was held under a bond of \$5,000 for the United States court in New Haven. It is understood that he has confessed to peculations extending over three or four years.

The hearing was held at Mr. Carroll's home as he was indisposed and unable to get to the court room.

Roger was brought here Friday afternoon, but Mr. Carroll was unable to hear the case, then the man returned to Canan for the night in custody of Constable L. C. Rhoades. There was then no sworn complaint against him and his journey here was more or less voluntary.

Woman, Hysterical Flings Herself In Path of Automobile

Orville B. Burton, a resident of Long Hill, reported to the police that while he was driving his automobile on Main street near High street at 10 o'clock this morning an unknown woman hysterically ran into the street and threw herself beneath the wheels of the passing automobile. Fortunately the machine was driving slowly and the woman was uninjured.

On being picked up from underneath the automobile the frantic woman pleaded to Mr. Burton to "kill her," adding that she was tired of life. Mr. Burton then reported the matter to police headquarters and the local authorities expressed themselves as highly indignant over the fact that Burton failed to identify the woman and escort her to the police station. No clue has been obtained leading to her identity.

ANOTHER "TREASURE TRAIN" ON WAY TO NEW YORK BANKERS

Vancouver, B. C., Aug. 28.—The second large shipment this month of gold and securities from London to New York passed through here today on the special train. It was said here that it consisted of bonds to the value of \$25,000,000 and \$19,000,000 in gold.

The gold securities are being forwarded to strengthen British credit in this country, and to arrest the decline in value of the British sovereign. They were placed on a heavily guarded train at Halifax.

The train was made up of six cars, and carried 38 express guards.

WEATHER FORECAST

Unsettled, probably showers to-night; Sunday warmer.

BURGLARS GET RICH HAUL IN JEWELRY STORE

Prowl Through Cellars of Stores in Stratfield Annex and Force Doorway.

LOOT SHOWCASES BUT FAIL TO FORCE VAULT

Nightwatchman Saw No Trace of Trouble Shortly Before Dawn.

Burglars, working in the early morning hours in Jacob Scher's jewelry store, 1189 Main street, near Golden Hill street today made off with booty valued at approximately \$2,500.

In the opinion of the police the act was performed between 3 and 5 o'clock this morning. Entrance was gained by breaking a cellar door of the Grant 25 cent store after which the intruders cut a large pane of glass in a partition in the cellar of the Grant store, which connected with the cellar of the Scher's establishment. The prowlers then gained entrance to the rear of the jewelry store by forcing the lock at the entrance to the cellar stairway. After gaining admittance to the rear of the store they procured a long coat hook and throwing it over the partition dividing the rear from the front of the store, endeavored to slip the drop catch, but their efforts were fruitless. The partition extends only half way to the ceiling and the burglars then clambered over it, unlocking the door from the other side.

They then pillaged the windows and shelves of the store, but were unable to gain entrance to the large jewelry vault. The stolen goods were then taken out through the rear entrance and carted away unknown to Sergeant Walker and two guards of the peace who were standing in front of the jewelry store at the time of the robbery is believed to have occurred.

The night watchman at the Stratfield hotel reports having made his rounds at 3:30 and states that everything appeared to be all right. He again made his usual rounds at 5 o'clock and was unable to find anything wrong with the surroundings.

Upon the arrival of Jeweler Scher at his place of business at 8 o'clock this morning the missing articles were found to be in a disordered state. Trays, jewelry cases and other jewelry receptacles were strewn around the floor and shortly after making an inventory of the missing articles Mr. Scher reported the matter to the police. He estimates the amount of stolen goods at \$2,500.

Among the stolen articles were the following: 5 dozen assorted gold filled bracelets; 15 nickel gold plated watches; 500 solid gold watch pins; 47 gold filled watch chain lockets; 250 gold filled scarf pins; 75 pair of solid gold earrings; 3 dozen coat and Walden watches; 1 dozen gold filled double watch chains; 2 sets of gents' shirt studs, gold filled; 1 silver plated cigarette case; 12 pair of opera glasses, pearl and black and 2 having handles; 4 gold plated penknives; 15 strings of 14 kt. and 10 kt. gold neck beads; 3 10 kt. gents' gold coat chains; 3 wrist watches, Swiss movement, left for repairs. The police do not believe that the amount of stolen goods aggregate as much as amount placed upon them by Jeweler Scher.

It was later discovered that the burglars entered the Frankel's Millinery store next door to the Scher jewelry store. No damage was done at this place and no goods are missing.

It is believed that they attempted to gain admittance to Scher's by way of Frankel's millinery store but failed and then directed their attention to the cellar door of the Grant 25 cent store.

EXPECT SPEEDY RETURN TO WORK AT BRYANT PLANT

With nothing but minor details to be settled, it is very probable, according to labor leaders, that the employees of the Bryant Electric Co. will be back to work Thursday.

Waldo C. Bryant, president of the plant, but of town and it is expected that on his return final arrangements will be made.

The eight hour day, the same pay for 48 hours as formerly received for 55, and the recognition of a committee of employees to review grievances will be agreed to, it is expected.

SIEMON WON'T BUDGE; HE PAYS OFF STRIKERS

Employees of the Siemon Hard Rubber Co. were paid off today. None of the men have returned to work, although President Carl Siemon of the concern said that those who desired might return at the old rate of wages and old hours.

There was no disorder about the plant and Mr. Siemon denied that he had asked that a policeman be detailed there while the pay was going on.

He said that he would grant none of the demands of the factory workers and that the factory would remain closed for a time. All of the foremen were at work today preparing and shipping some small orders which were in when the men went out on strike.

METAL WORKERS' NATIONAL OFFICERS RUSH HERE TO WARD OFF ARMS STRIKE

REMINGTON BAYONET MAKERS DISSATISFIED WITH NEW SCHEDULE

Trouble Brewing in New Arms Works Over Arrangement of Schedule of Wages—International Officers of Metal Workers' Union Here—Claim of Discrimination Made.

Because it is asserted that the management of the Remington Arms & Ammunition Co. isn't living up to its agreement with the metal polishers and brasiers, working on bayonets, another strike is threatened there.

The executive board of the Metal Polishers', Buffers', Platers', Brass and Silver Workers' Union will meet either Monday or Tuesday next week and decide what action to take. A strike is not improbable, according to the status of the case today.

When the entire Remington plants made concessions to the workers, it was expected the new workmen at the bayonet polishing industry would receive 38 cents an hour for their work. Another conference was held last week for an adjustment of the wage question and it was thought the matter was settled. The workmen, however, complained that they have not received what was expected.

On top of that, four brasiers were locked out of the factory last week after seeking adjustments, according to John J. Flynn, international vice president who is here to handle the situation. This complicates the trouble and will be a factor in precipitating the strike trouble, if the latter is found necessary.

Piece workers who were supposed to receive \$1.25 a hundred, according to discussion, were offered 80 cents a hundred.

John E. Fitzgerald, who is also a vice president of the union, has been called here, and is assisting Mr. Flynn.

AUTOS SCOUT STRIKE-BREAKERS TO WORK IN SPRING PERCH CO.; BLACKSMITHS' OFFICERS CALLED

Pickets and policemen are stationed near the plant of the Spring Perch Company, following the walkout, last Monday, of about 60 of the employees.

Organization on the following day, of a blacksmiths' union, gave to the strikers an effective medium through which to conduct their strike for an eight hour day with ten hours pay, time and one-half for overtime, and double time for Sundays.

The strikers claim that they often have worked for 13 hours a day and sometimes in rush seasons, and got no overtime pay; that they have worked only a few hours a week in dull seasons; and they say that now with conditions prosperous, they feel they are entitled to their fair share of the profits of the plant. The factory is rushed with war orders for automobile springs.

The strikers say the plant is considerably crippled by the loss of their experienced men, and that while the plant is running, it will not be able to continue successfully until concessions are made.

The general organizers of the blacksmiths' international union will take the situation in hand in a few days. There are a number of members of the union still working in the plant, who will leave, the strikers say, when there is a permanent organization of the blacksmiths' union made here.

STATE FEDERATION OF LABOR IS TO PUSH EIGHT HOUR DAY CAMPAIGN IN ALL CONN. SHOPS

Meriden, Aug. 28.—The eight hour day will be the principal subject of a discussion by the executive committee of the Connecticut Federation of Labor, which meets in New Haven today.

Julius C. Stremlau, president of the Federation, left today to attend the meeting. He said:

"We have requests from unions in every city in the state for action to bring about the shorter work day. Organized labor believes that the time

has come when the eight hour day should be a reality in the state. The success of the movement in Bridgeport where twenty concerns already have granted the eight hour day with no cut in pay shows that the justice of the demand made by workmen is being conceded."

"The government has recognized it, and workers in other fields think they are entitled to as much consideration. The eight hour day will undoubtedly be declared to be a state-wide movement by the federation."

MUNSEY SELLS PAPER.
Baltimore, Aug. 28.—Announcement was made today of the sale by Frank A. Munsey of the Baltimore News and the Munsey building to Stuart Oliver, who has been general manager of Mr. Munsey's Baltimore interests for the past eight years. Mr. Oliver announced that he "stands alone in purchasing these properties."

STARTS FAMILY ROW; JAILED
Frederick Clausen, of 16 Webster street, arraigned in city court today on the charge of continually creating a disturbance in his home and failing to properly provide for the support of his family, was sentenced to jail for 30 days by Judge Frank L. Wilder.

Reported Discharge of Four Brasiers At Remington Plant Because They Sought to Effect Wage Adjustment Precipitates Serious Situation Among Bayonet Makers.

FREIGHT HANDLERS THREATEN TO TIE UP YARDS THROUGHOUT STATE

Week End Brings General Rejoicing to Labor Leaders and Thousands of Union Workers Who Have Gained Eight Hour Day As Result of the Activities of the Week.

Another strike at the Remington Arms & Ammunition Co. is threatened because of disagreements over wages.

The bayonet workers, both polishers and brasiers, said to be the best in the country, are awaiting the word of the executive board of the Metal Polishers', Buffers', Platers', Brass and Silver Workers' Union of North America, as to what action to take.

A meeting of the international officers of the union will be held Monday or Tuesday, at which it will be decided whether to strike or adopt further mediation.

Four brasiers, it is claimed, were locked out of the factory last week. This, and the fact that the polishers claim their agreement with the company has not been lived up to, is likely to cause another walkout at the big arms plants.

A general tie-up of freight in Connecticut is also impending. Communication is being held with the freight handlers at all the stations in the state with the object of causing a strike throughout the lines provided the company doesn't abandon its attitude of refusing to treat with the men.

Today was marked by general rejoicing throughout the city because of the many adjustments of difficulties and the frequent announcements yesterday of eight hour day programs to be instituted in factories.

The Crown Corset Co. and George C. Batcheller Co. girls will return to work Monday with nothing remaining but the settlement between three or four girls and their employers, of a minor grievance.

Waldo C. Bryant, head of the Bryant Electric Co. will be back in this city Monday and it is expected he will complete arrangements for his employees to return.

The Acme Shear Co. employees have turned down the offer of the company and are awaiting further overtures.

Judge F. L. Wilder reversed his decision of Thursday, in the city court this morning when he discharged Tony Deleo, alleged to have assaulted a policeman. Deleo had been arrested, tried and jailed all in the space of a few hours, and overwhelming testimony at the re-opening of the case this morning showed him not guilty. He was discharged.

The Siemon Hard Rubber Co. employees have been paid off, and the situation there hasn't changed.

There is no change in the American Chain Co. strike situation.

The Bias Narrow Fabric Co. employees will not return until the company agrees to accept two cutters, who have been discriminated against because they served on a committee.

The Star Shirt Co. remains closed and the strikers will make no offers to the company until the latter's attitude is changed, according to Organizer Bernard Abrams.

A speedy and final settlement of the strike at the Albert & E. Henkels Co. is expected Monday. Nothing remains to be granted but the recognition of a committee of employees to review grievances.

The Canfield Rubber Co. employees and employees are parleying over a few minor matters. The eight hour day has been allowed, it is understood. At the H. O. Canfield Co. relations between the officials and the workmen are excellent. No strike occurred there.

STRIKER, RAILROADED TO JAIL, FREED IN CITY COURT WHEN EXONERATED IN ASSAULT CASE

Tony Deleo, of 1639 Fairfield avenue, one of the strikers of the Salt's Textile Co., who on Thursday, was sentenced to four months in the county jail for assault, was found not guilty of that offense when his case was re-opened and tried for new evidence in the city court today.

The re-opening of the case served to show that Deleo was not guilty of any hostile action towards Sergeant James O'Neill of the police department. The new trial of the case proved to the satisfaction of Judge Frank L. Wilder that Deleo told the truth when he said he had thrown no stones or other missiles at the policemen when they had taken into custody Julia Todd, one of the striking women weavers, on Wednesday morning.

Deleo had been sent to the county jail on Thursday morning, a few brief hours after his arrest. He was taken into custody at 8 o'clock, haled in to city court almost immediately on his arrival at police headquarters, and tried speedily. News of this unusual

procedure as shown, his fellow workers that they promptly took steps to have the case re-opened, that the truth might be known.

The case of Joseph Oras, also a striker at the Salt's Textile Co., who was re-opened, resulted in the imposition of the same penalty as was meted out on Thursday morning. The court was not satisfied that Oras was telling the whole truth.

There were nearly a dozen witnesses from among the strikers to substantiate the story told by Deleo, that he had not taken any part in violence.

**Held For Forging
Drug Prescription**
New Haven, Aug. 28.—James Hayden, arrested yesterday for selling a narcotic drug, was held in \$1,000 bonds for trial today. He obtained the drug at a store on an order signed by Dr. W. J. Cooney, which signature the prosecution alleged was a forgery.
